

FABRIC REQUIREMENTS: SCRAPS (PAGE 1 OF 2)

If you choose to do the quilt in scraps, select fabrics that read **very** closely as the same color. For example, you may select multiple red fabrics, but it is important to select fabrics that read similarly to get the full effect of the quilt design. See the pictures of Laura's sample quilt fabrics as an example.

If you are **NOT** using scraps, follow the cutting instructions on the applicable fabric requirements pages (yardage or fat quarters). Do NOT follow these sub-cutting instructions or you will not have enough fabric. 😊
